Dave--

Are you free Thursday morning before 10:30? We could do then. I am on travel Thurs. pm and Friday. Thanks.

RE: Columbia River TMDL Meeting-summary notes finalized

David-I have to apologize for: 1)our slow response time and 2)our lack of coordination with you re: our response. The Corps does have modifications to the 3rd draft meeting summary you sent out some time back. I shared them with Denise Keehner on March 19th. Our intention was, and still is for the two of us to meet to go over our modifications, agree on how to address them, and finalize the document. Given the demands of our schedules, we have had difficulty in finding a mutually-acceptable time to sit down and go through the minutes to wrap things up. I promise to work with Denise to get this resolved ASAP.

Thanks for your continued patience,

Dave

Subject: Columbia River TMDL Meeting-summary notes finalized

Hello,

As there have been no comments on the content of the summary meeting notes since the last two requests for final comments in December and March, I have finalized the notes of our September 25-26, 2007 meeting in Portland. A copy of the notes is attached. Thanks one and all.

The meeting on March 4, 2008 of the technical team, with some policy team representatives, went well and their meeting notes are in the process of being finalized as well. As planned, EPA will begin talking more about this subject with relevant state and tribal governments, exploring their interests and how they will determine compliance. Thanks for your efforts to date,

more to come.
